

TRAINING & CERTIFICATION PROGRAM

2019 AGENDA

NEW TRAINING MODULES

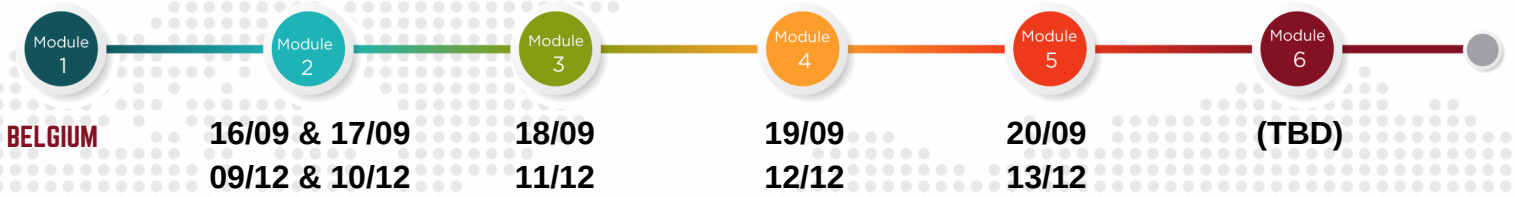

CHOOSE EXCLUSIVELY THE MODULES THAT YOU WANT TO GET CERTIFIED IN!

The new training modules are exclusive, invitation-only events that offers our partners the opportunity to learn about the latest Legrand innovations and the industry's leading solutions in regards to integration and home automation.

These training modules are divided into different topics and functionalities, spread over different days, and will include an extended and detailed overview of our Legrand product offer from **Vantage**, **Nuvo**, **Art D'arnould**, **Luxul** and **Qmotion** as well as 3rd party integration solutions and an in-depth hands-on software training for both residential as commercial environments.

Now you have the option to subscribe exclusively for the modules that you are most interested in. The modules will provide you with the technical knowledge needed to quote, install, program, commission and support your integrated projects in the best possible way.
