

# CASE STUDY

2019

COMMERCIAL PROJECT  
PERU, LIMA

Binnendijk 40  
9130 Beveren, Belgium

## ABOUT THE PROJECT

**Application Type** Commercial

**Location** Peru, Lima

**Area** 500 sq. meters

**Project Management** Vantage LATAM

## PROJECT CHALLENGE

Restaurante Central is located in Lima, Peru. It is one of the top five restaurants in the world, run by Virgilio Martinez who received the 2017 Chef's Choice Award, placing himself at the top of the gastronomy world.

The restaurant needed an automated solution due to the fact that they offer their costumers a whole gourmet experience and it can not be reached unless customers are comfortable with the lighting and the temperature.

## THE SOLUTION

A well designed lighting and control system created a warm and inviting environment for the top star restaurant. Because the visual atmosphere is as important as the food itself, the Vantage lighting and controls were well designed at CENTRAL restaurant, and matched perfectly to increase the guest experience.

The system automatically changes the light levels set by time events and also turns on and off the air conditioner system.

## PROJECT BENEFIT

- Precise control of all lighting in the building through the InFusion system

## VANTAGE

CIS10-DIN X 5  
HVAC-INT X 1  
FLSMINI36016 X 37  
IMPE-4-IC36 X 1  
ISPE-4-IC X 3  
TSDM-KIT X 3  
IC-36 X 1  
TLM-KIT X 7

SDM12-EM X 3  
RS8-DIN X 2  
LVOS0-10-PWM X 1  
KS18TS-AWYG X 7  
FP18TS-AWNM X 7  
DMX-DALI-GW X 1
