CASE STUDY

2019

RESIDENTIAL PROJECT
NAPLES, ITALY

Binnendijk 40
9130 Beveren, Belgium

ABOUT THE PROJECT

Application Type: Residential
Location: Naples, Italy
Project Management:
Ing. Dario Nasti - Studio di Ingegneria Nasti
Arch. Francesco Di Sessa - Studio di architettura Di Sessa
Owner: Enzo B.

PROJECT CHALLENGE

The client wanted a beautiful, robust, cost-effective solution to meet all the demanding needs that this apartment required.

Vantage ticked every single box.
The client has the ability to control all types of lighting technologies through either a centralized or decentralized system topology. Vantage provided complex control and integration, to the entire property.

THE SOLUTION

Choosing Vantage has allowed the customer a complete integration of all the apartment's functions. Everything that is present in the house is controlled by smartphone and touchscreens, thanks to Equinox screens.

The advanced lights control of the automated lighting system brought considerable energy saving solutions with a single button control. Convenience was the main focus, with an emphasis on dramatic lighting scenarios and simple control.

The powerful InFusion control platform allowed for a complete home automation system controlling the residence and grounds. Vantage was able to add a host of elegant, energy-saving devices including sensors, keypads, dimmers and touchscreens to provide an unparalleled level of functionality while blending seamlessly into the apartments.

The use of RGB Dmx systems has allowed the integrator to create suggestive scenes that can be accompanied by a pleasant music in any background. Safety is important, so the integration of security systems and fingerprints has allowed the client to guarantee safety and functionality, to protect the home environment from the surroundings.

PROJECT BENEFIT

- Enhanced convenience
- Improved safety and reliability
- Exceeded design prerequisites a
- Energy saving solutions

▼ VANTAGE

1 x Controller ICDIN-LITE
2 x RS8-DIN
1 x IRX-II
2 x RS8L-DIN
2 x CIS10
1 x GW-DMXDALI
6 x KEYPAD STATION SQUARE TOUCH METAL
4 x KEYPAD EQ40-TEMP
3 x KEYPAD EQ40
1 x EQUINOX-73-II
2 x NUVO P100
1 x NUVO P300
2 x FL-MINI
