# Nuvo®
KNX Interface Point

The Nuvo KNX interface is a versatile bridge between the Nuvo players & KNX, making it easy to integrate Nuvo players in any KNX system.

Nuvo whole home audio systems guarantee an unparalleled listening experience, with wired and wireless distributed audio solutions specially designed to match incredible fidelity with the latest in streaming source variety and intuitive control. Easy to install, easier to enjoy, Nuvo systems are the perfect fit for any home. And with this interface you can integrated Nuvo whole home audio systems in any KNX installation. With the push of a button of a KNX product, a homeowner can effortless control these Nuvo player devices. In addition to this the homeowner will also get status feedback visualization from all of the different functionalities (volume, sources, ...).

Integration with KNX is available via ETS programming. A Nuvo KNX-INTFPOINT is required which can be purchased from Vantage EMEA.

* Designed to integrate NUVO with KNX certified products

* Controlling volume, sources, zones

* LED indication

* Configuration within the KNX ETS software
