

EBD-ENCIP1 Surface Mounted Enclosure

The EBD-ENCIP1 is a detector adapter enclosure designed to be used as a surface mounted option for detectors.

Features include a flame retardant polycarbonate material. The EBD-ENCIP1 is supplied with a pre-drilled 64mm hole adapted to accept many of the CP Electronics detector range.

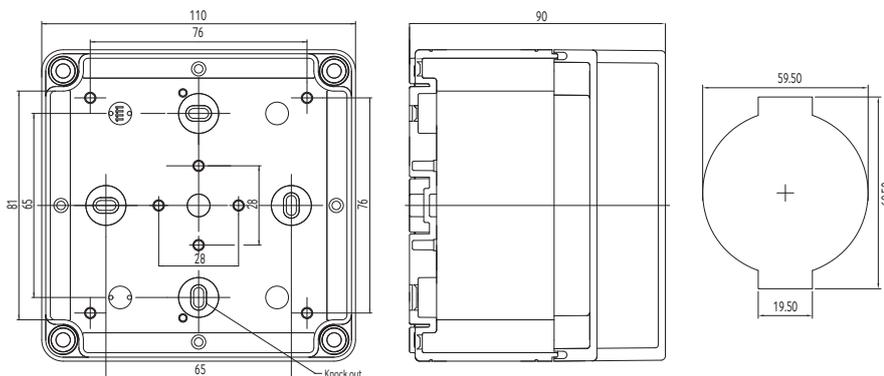

EBD-ENCIP1 can be mounted in cold storage areas to temperatures to -30°C.

The EBD-ENCIP1 is supplied with fibreglass reinforced retaining screws which are simple to fit and lock the enclosure.

Key Features

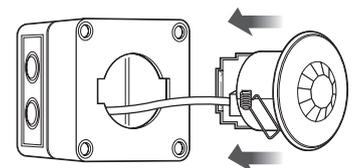

- Pre-drilled 64mm hole
- 110 x 110 x 90mm
- M20 knock outs
- Large cavity for wiring
- Impact resistant

Dimensions

Environmental Data

Temperature range	-30°C to 50°C
Material (casing)	Cover, base – Polystyrene Screw – Polyimide 6
Impact Rating	IK07

PLEASE NOTE:

Pull out spring tab, rotate spring arm as shown insert into aperture and rotate for location
