

## Your favorite music in the palm of your hand.

### How to listen to audio stored on your mobile devices.

From a wide variety of internet radio and streaming services to personal collections on networked devices, Nuvo makes it easy to listen to all your favorite music. Learn how to quickly access audio stored on your phone or tablet – and listen throughout your Player Portfolio System.

- 1** Make sure your mobile device is connected to the same network as your Player Portfolio system.
- 2** Select Your Zone - drag and drop to start and then tap on your zone to select music.
- 3** Tap the music note and select your device as the source.
- 4** Choose what you want to listen to, and enjoy!
